PROFESSIONAL SUMMARY

Full Stack Developer specializing in MERN stack development, responsive user-centric web applications, and secure backend systems. Experienced in building AI-powered applications, RESTful APIs, authentication and authorization workflows using JWT and RBAC, and database-driven solutions with React.js, Node.js, Express.js, and MongoDB. Skilled in integrating AI technologies, optimizing UI performance, and developing scalable applications with a strong focus on security, usability, and user experience. Proficient with Git, Postman, API integration, and Agile development workflows to deliver high-quality software solutions in collaborative environments.

SKILLS

Languages: JavaScript (ES6+), HTML5

Frontend: React.js, Vite, Tailwind CSS, Framer Motion, React Lottie, Responsive Web Design, UI Optimization, User Experience (UX), NextJs

Backend: Node.js, Express.js, RESTful APIs, JWT Authentication, Secure API Integration, Client–Server Architecture, Role-Based Access Control (RBAC)

Database: MongoDB, MySQL

Tools & Technologies: Version Control (Git, GitHub), Postman, Axios, Figma, Framer, API Testing

Soft Skills: Analytical Thinking, Adaptability, Learning Agility, Team Leadership, Stakeholder Communication, Cross-Functional Collaboration, Public Speaking, Time Management

WORK EXPERIENCE

Full-Stack Development Intern | QSpiders

April 2026 – July 2026 | Noida

- Applied **MERN stack technologies** to develop full-stack web applications, integrating responsive UIs, REST APIs, and database functionality.
- Strengthened practical expertise in **React.js, Node.js, Express.js, MongoDB, and JavaScript** through practical assignments and project based learning.

Frontend Developer | CoForce (A Unit of HIDS)

Feb 2025 – Mar 2025 | Remote

- Engineered a **responsive** scholarship management platform using **React.js**, streamlining application workflows and enhancing user experience.
- Developed a centralized dashboard for real-time application tracking and fund distribution, improving interface responsiveness by **15–20%**.
- Implemented **Role-Based Access Control (RBAC)** and **secure authentication** workflows for multiple user roles.
- Optimized frontend performance across high-traffic modules and collaborated with 4–6-member cross-functional teams to ensure 100% on-time feature delivery.

Student Induction Program Volunteer | Ganga Institute of Technology & Management

Aug 2023 – Sept 2023 | Haryana, India

- Coordinated onboarding activities and logistics for **200+ students**, ensuring seamless execution of induction programs.
- Improved participation efficiency by **35%** through effective scheduling and process coordination.
- Resolved **50+ student queries daily** and collaborated with faculty teams to improve onboarding experience and reduce delays.

PROJECTS

Synapse – AI-Powered Socratic Code Reviewer & Learning Platform | MERN Stack, Google Gemini AI

- Developed a full-stack **AI-powered** code review platform supporting multi-language code analysis and automated debugging recommendations using **MongoDB**, **Express.js**, **React.js**, **Node.js**, and **Vite** for intelligent multilanguage debugging.
- Integrated **Google Gemini 2.5 Flash** API to generate structured code reviews with root-cause analysis, refactored solutions, and best-practice recommendations.
- Implemented secure authentication using **JWT + bcrypt** and developed a Personal Bug Library with **CRUD** functionality for persistent learning history.
- Integrated **StackOverflow** and **DuckDuckGo APIs** to provide contextual learning and community-driven debugging support.
- Designed a responsive developer-focused UI with **Markdown rendering**, **syntax highlighting**, and **modern interactive components**.

Recipixx – Recipe Discovery Platform | JavaScript, HTML, Tailwind CSS, API Integration

- Developed a **responsive** recipe discovery platform enabling users to search and explore recipes dynamically.
- Integrated **TheMealDB** API using **async/await** and dynamic **DOM manipulation** to fetch and render recipe details in real time.
- Implemented **search functionality**, **modal-based recipe views**, **responsive layouts**, and **multilingual support** to enhance user experience.

Portfolio Builder | HTML, CSS, JavaScript

- Developed a **dynamic** portfolio/resume builder that generates personalized portfolios based on user-provided form inputs.
- Implemented **real-time data rendering** and structured templates to organize user details into a professional layout automatically.
- **Integrated PDF export functionality** enabling users to download generated portfolios/resumes through a responsive interface.

CERTIFICATIONS, TRAINING & ACHIEVEMENTS

- **Full Stack Development Internship and Training** - QSpiders, Noida
- **Career Essentials in Generative AI** - Microsoft & LinkedIn
- **Generative AI Certification** - GUVI (in collaboration with **HCL & AICTE**)
- **AppSec Hackathon Participant** - DSCI & NASSCOM
- **Golden Eagle Award** - Academic Excellence in Senior Secondary Education **EDUCATION**

Bachelor of Technology (B.Tech) – Computer Science & Engineering

Maharshi Dayanand University, Haryana (2022 – 2026)

Senior Secondary Education (XII) - 85% School

of Excellence, Delhi (2020 – 2022)

Secondary Education (X) - 92%

Prince Public School, Delhi (2017 – 2019)
